

## Why Do I Need to Pay Online or Pay Using the RX VALET App First?

We know this is a new concept, but once you try it, you will love it. Our prices are pre-negotiated through our partner PBM so that when you purchase through RX VALET, we create an electronic RX VALET benefit card to use at any pharmacy and you will owe nothing, or have no co-pay. Our prices are guaranteed. Think of your RX VALET card as an Rx Voucher. In a traditional prescription benefit plan you pay co-pays and a monthly premium. That premium is based on everyone in the group's pharmacy needs. With RX VALET, you pay no premium for this benefit and you only pay for the medications your family needs, when you need them.

## What About \$4-Generic Drugs Available at Some Grocery-chain Pharmacies?

These are called "loss-leaders". RX VALET or your health insurance plan cannot compete with that. Always call ahead and make sure they have your drug available, and price all your medication out with RX VALET before you go. We can't beat the "loss-leader" drug, but remember... we are accepted at that same retail pharmacy. You can take advantage of the loss-leader drugs and guarantee your savings with RX VALET for all your other medications. Don't forget about our RX VALET Mail-Order Pharmacy. It may be more convenient and save more money to have us deliver your medication right to your home.

## Avoiding the Three Most Common Pitfalls When Using Retail Pharmacy Pick-Up

1. Make sure the quantity you purchase on RX VALET is correct.
2. Make sure your dosage and name of your drug is correct. There are multiple variations of the same medication, for example: HCL, XR, solution, tablet, etc... and also check the milligrams of weight.
3. At checkout you will be asked "Who is this medication for", make sure to correctly mark yourself or your dependent. If you purchase the drug for you and it's for your son, it will not work at the pharmacy.

## Prescription Assistance Program (PAP) for High-priced Medications

If you qualify, we urge you to take advantage of this brilliant service. We handle all the work after you answer a few simple questions. Prices range from \$25.00 to \$250.00 per month for medications that normally cost \$400 to \$6,000 per month. Email [info@MyRxValet.com](mailto:info@MyRxValet.com) to request a consultation and one of our Customer Care team will contact you.

## Why is Mail-Order So Much Lower Than Retail Pharmacy Pick-Up?

It's simple economics. Advanced Pharmacy in Greenville, SC and our affiliates are exclusive partners for mail orders. They're commonly known as "closed-door pharmacies" and don't have the overhead of your local retail pharmacy. We buy directly from U.S. manufacturers, add a small markup to cover our costs and turn a profit based on volume. We do not want to replace or diminish the need for your local pharmacy. There are many times you need your medications today and they play a vital role in your health and well being. For maintenance medications that treat chronic conditions, mail-order just makes economic sense. The hassle-free ease of auto-refills and auto-shipping with free standard delivery is just a couple of ways we put the "VALET" in RX VALET!

## Get Your Home Delivery FAST!
