

WE DO ALL THE WORK... WHAT DOES THAT MEAN?

We try and most of the time we succeed to do all of the work for you to facilitate your order at no additional cost. You should allow 10-14 days for us to retrieve your script, fill it and deliver it in the mail. After this first purchase, mail order becomes extremely easy and automatic as long as you have a valid prescription on file. After you choose mail order on the RX VALET app or website, within 24-hours we initiate a prescription request from your local pharmacy or physician and have it transferred to our affiliate pharmacy – Advanced Pharmacy, LLC in Greenville, SC.

The reality is, occasionally pharmacies are busy and not that cooperative in transferring the script. When this happens we will reach out to you for help.

If there are any issues facilitating the receipt or transferring your prescriptions to our pharmacy service, we will reach out to you via email and/or phone to get your assistance. If we are unable to facilitate your order of a prescription drug for this month, you can always use our retail pick-up option and pick up the drug at your local pharmacy. If this happens, just request the pharmacist transfers your script.

THE FASTEST WAY TO GET YOUR MEDICATIONS HOME DELIVERED

- 1) Call your doctor's office.
- 2) Have your doctor E-scribe directly to Advanced Pharmacy, Greenville, SC.
E-SCRIBE#: 4229971 OR FAX 888-870-3823.

AVOID COMMON PITFALLS WHEN USING MAIL-ORDER PHARMACY

- 1) Please make sure not to buy a 90 day supply, when your script is for 30. **This is the most common mistake and delay for not receiving your medications.** Only a *Licensed Doctor* that you are under their care can change your prescription, so call them and ask them to send it directly to Advanced Pharmacy.
- 2) Make sure your dosage and name of your drug is correct. There are multiple variations of the same medication, for example: HCL, XR, solution, tablet, etc... and also multiple milligrams of weight. Please make sure these are correct before you order.

WHY IS MAIL-ORDER SO MUCH LOWER THAN RETAIL PHARMACY PICK-UP?

Simple economics. Advanced Pharmacy in Greenville, SC is our exclusive partner for mail order. They are what is called a “closed door pharmacy” and does not have the overhead of your local retail pharmacy. We buy directly from U.S. manufacturers, add a small markup to cover our costs and turn a profit based on volume. We do not want to replace or diminish the need for your local pharmacy. There are many times you need your medications today and they play a vital role in your health and well being.

For maintenance medication to treat chronic conditions, mail-order just makes more sense economically, for the ease of auto-refills, auto-shipping, and for daily medication reminders. That's the “VALET” in RX VALET!
